

COMMERCIAL SUNROOM PRODUCTS

A Division Of Patio Enclosures, Inc.

Incarnate Word Academy, Parma, OH

The Sisters of Incarnate Word Academy desired to convert non-functioning roof space into additional usable space for the academy. The Sisters turned to the “local” experts to design and implement a plan that would provide the much needed space.

The Commercial Division provided the design, engineering, manufacturing and installation of the room. The flexibility of the Commercial Division to meet the rigorous demands this project presented, afforded our customer a pleasant and successful experience in working with the C.S.P. team.

This “AllView” Enclosure consists of a series of sliding glass units and fixed glass units set on a brick wall of various heights.

Our 3” thick insulated roof system rounds out the Enclosure to provide comfort to the Academy for years to come.

The building benefits are:

- Custom design
- Safety Tempered Glass
- R-15 roof system
- PPG Duracron/Polycron Bronze Finish
- Turnkey services

The Commercial Division of Patio Enclosures, Inc. will solve your space needs. Contact us for more information or to obtain our CD Rom.
