

COMMERCIAL SUNROOM PRODUCTS A Division of Patio Enclosures, Inc.

Manhattan College

Riverdale, NY

When the Vice President of Facilities for the college was faced with a fast-track project to increase space for the dining area/student center, he sought the creative expertise of C.S.P. Together, the demand for space was achieved by installing a full glass solarium on an existing second-story terrace. Surrounded by other campus buildings, the terrace presented other challenges which only the experienced C.S.P. Team could overcome. Access was restricted, mobility for equipment was tight, besides being up 2 stories.

The custom-designed Straight Eave Solarium is 19' x 60' and is a beautiful sandstone color which blends with adjacent buildings. C.S.P. provided turnkey services to the college for the solarium scope of the work. Total installation time was 5 days on the site. The entire project was completed in less than 60 days.

Studies consistently show that natural light has many advantages to health, mood, emotion and scholastic performance.

Building features are:

- Custom design
- Installation by employee owners
- 1" insulated Bronze Low E glass, dual-sealed
- Duracron/Polycron Sandstone finish
- Commercial doors with panic hardware

The Commercial Division of Patio Enclosures, Inc. will solve your space needs. Contact us for more information.
